PROFILE Versatile professional, with experience developing for the web, using .Net and Ruby. Interested in Math, Computer Science and *Math* in general. Has familiarity, and good learning skills, for concepts and technologies which are relevant for the web.

PROFESSIONAL
EXPERIENCE

- 01/2012 Boo-box** <http://boo-box.com>
Technology company, in which I got touch with high scale systems.
- 06/2010 - 11/2011 Betboo** <http://betboo.com>
Online gaming website, where I worked on projects related with expansion to other countries (Asia and Europe)
- 11/2009 - 06/2010 Lumina1**
Advertising Agency, where I started working with web.

INTERESTING
PROJECTS

- **Borel** <http://rubydoc.info/gems/borel/>
Created this gem to solve problems using algorithms on comparable sets.
- **Audi Quattro for iPad** <http://vimeo.com/36426085>
Developed a framework for mapping DOM elements into a bi-dimensional physics model using javascript and css-transforms extensively.
- **ListeX** <http://listechi.com>
Project focused at the academic public. (*on development*)

ACADEMIC
QUALIFICATIONS

- 01/2010 - 12/2012 B.Sc. Mathematics** Universidade Federal do ABC (expected)
- 09/2006 - 12/2010 B.Sc. Science and Technology** Universidade Federal do ABC
- Dynamic modelling of the Magnetic Hysteresis phenomenon
Available at (pt-br): <http://www.scribd.com/doc/21709933>
 - **Teaching Assistant**
 - Multi-Variable Calculus.
 - Vectorial and Tensorial Calculus.
