## PROFILE

Versatile professional, with experience developing for the web, using .Net and Ruby. Interested in Math, Computer Science and *Hacking* in general. Has familiarity, and good learning skills, for concepts and technologies which are relevant for the web.

PROFESSIONAL  
EXPERIENCE

**11/2012 ClickARQ** <http://clickarq.com.br>

Architecture crowdsourcing startup, where I work as the only developer.

**06/2012 - 12/2012 Codeminer42** <http://codeminer42.com>

Worked in several startup projects, with Ruby, Java and Python.

**01/2012 - 05/2012 Boo-box** <http://boo-box.com>

Technology company, in which I got touch with high scale systems.

**06/2010 - 11/2011 Betboo** <http://betboo.com>

Online gaming website, where I worked on projects related with expansion to other countries (Asia and Europe)

INTERESTING  
PROJECTS

- **Borel** <http://rubydoc.info/gems/borel/>  
Created this gem to solve problems using algorithms on comparable sets.
- **Audi Quattro for iPad** <http://vimeo.com/36426085>  
Developed a framework for mapping DOM elements into a bi-dimensional physics model using javascript and css-transforms extensively.
- **Contributions**  
I also have several contributions to other projects, check out my github.

ACADEMIC  
QUALIFICATIONS

**01/2010 B.Sc. Mathematics** Universidade Federal do ABC

**09/2006 - 12/2010 B.Sc. Science and Technology** Universidade Federal do ABC

- Dynamic modelling of the Magnetic Hysteresis phenomenon  
Available at (pt-br): <http://www.scribd.com/doc/21709933>

- **Teaching Assistant**

- Multi-Variable Calculus.
- Vectorial and Tensorial Calculus.
